hamood

**Optimized Head Tilting Structure**  
smoother adjustment for large screens

**Quick-Release VESA Plate**  
allows easy installation and removal

**Smart Base with USB 3.0 & USB-C Ports**  
for data transmission and charging

## DESCRIPTION

To keep up with the new trend of larger screens, we've designed the **HMD-141** monitor arm to securely hold monitors up to 49 inches, such as the Samsung Odyssey G9. The optimized tilting mechanism provides a smoother adjusting experience for these large screens.

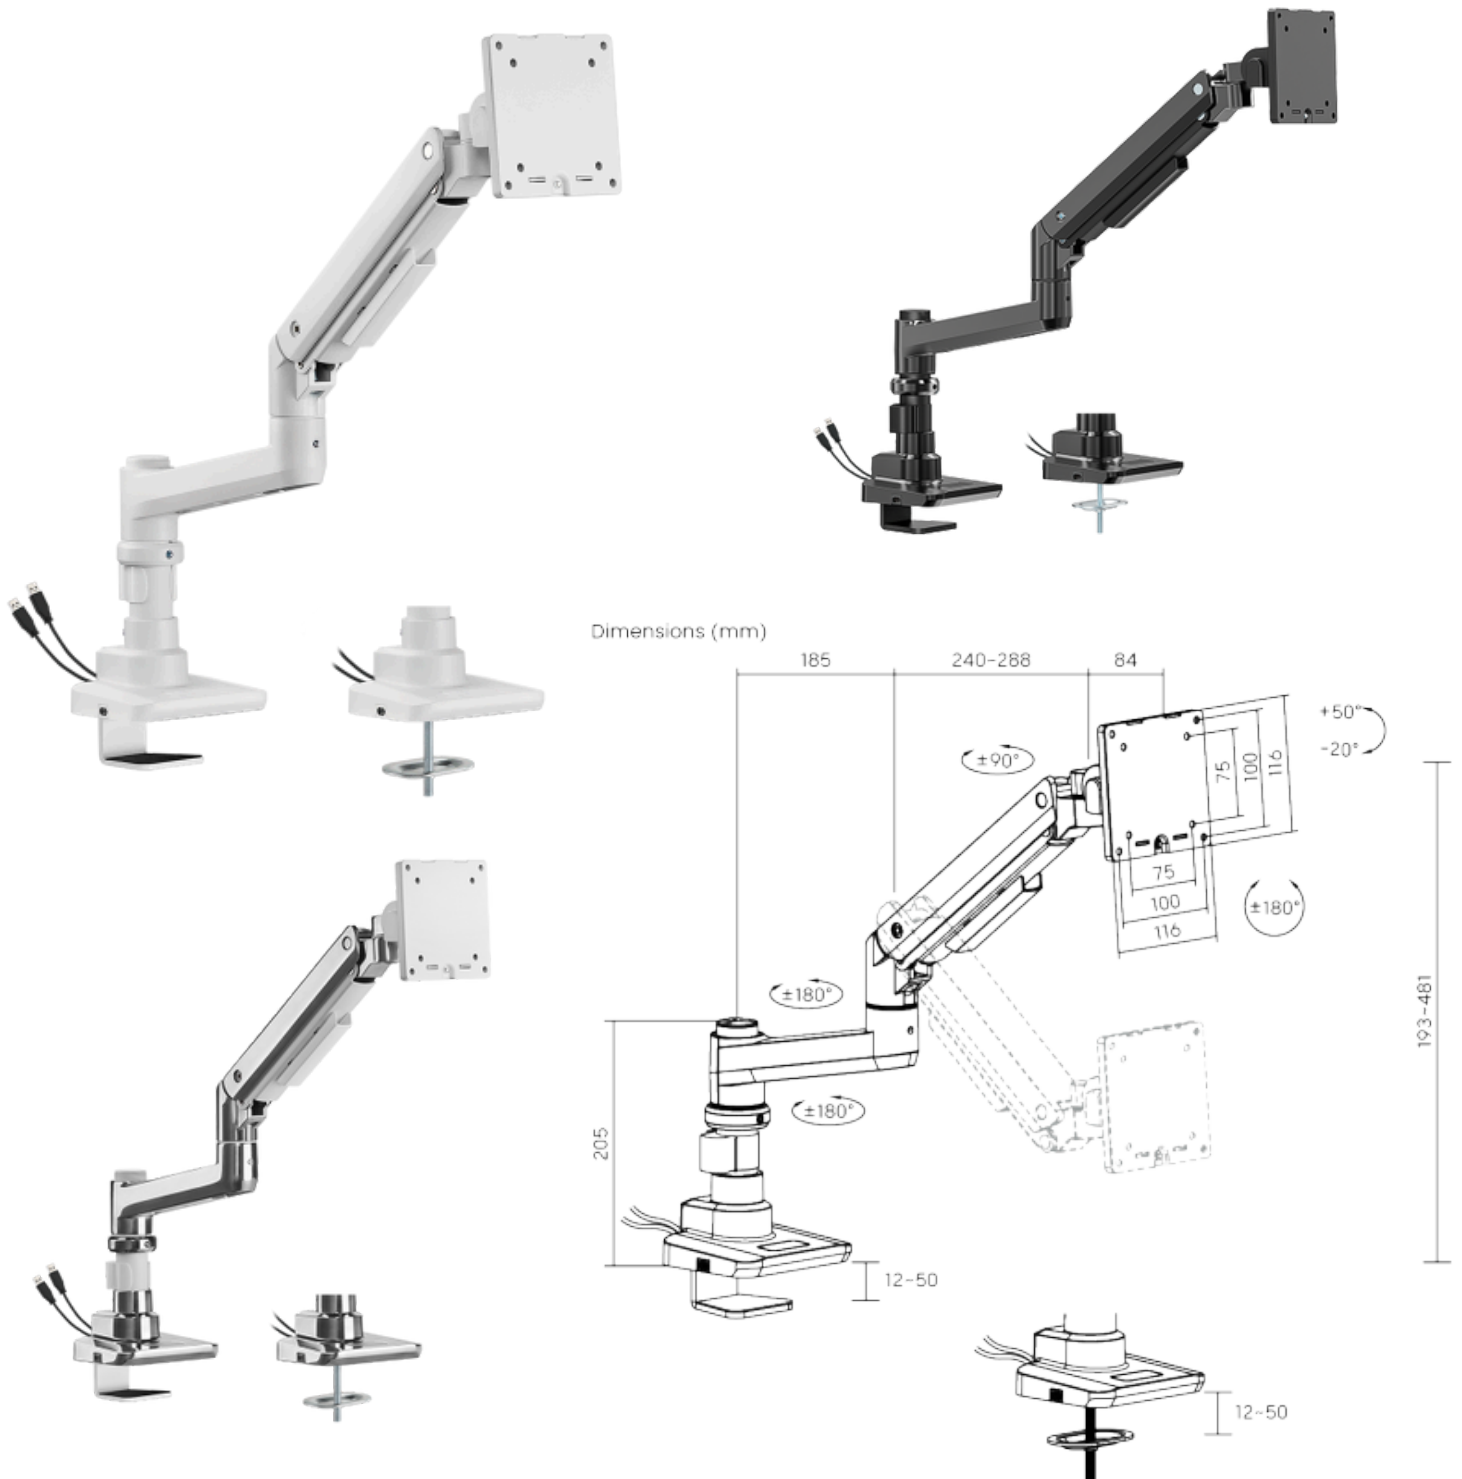

Additionally, the quick-release VESA plate and topside installation base make it incredibly convenient to use. A smart base with USB-A & USB-C ports allows easy data transmission and charging. With four stylish color options, this monitor arm can seamlessly blend into any interior style. Take your large screen experience to the next level with this strong and sleek monitor arm.
